SUMMARY

Full-Stack Web Developer with a **2+ year of experience** building scalable, high-performance web applications using the **MERN stack**, currently working at Qusah Stores. Specialized in building responsive, dynamic web applications using **React.js**, **Next.js**, and JavaScript (ES6+) alongside secure back-end systems using Node.js, Express.js, MongoDB, and GraphQL. Also experienced in Salla platform theme and app development for Saudi e-commerce clients. Skilled in delivering end-to-end applications, including authentication, RBAC, and real-time features, with a strong focus on clean architecture, performance, and user-centric design.

EXPERIENCE

Qusah Stores — Software Engineer

Jan 2026 – Present

- Build and ship scalable React.js and Next.js applications for enterprise ERP and e-commerce products, working across the front end and the API layer.
- Develop custom Salla storefront themes and apps on the Twilight engine — product, cart, and checkout flows — for Saudi retail clients.
- Improve performance, reliability, and maintainability across the codebase through refactoring, caching, and deliberate rendering strategy (SSR / ISR).
- Collaborate with cross-functional teams to deliver ERP features aligned with business requirements, in an Agile workflow using Jira and ClickUp.

DrCorp — Full-Stack Developer

Aug 2025 – Jan 2026

- Designed and built REST APIs in Node.js and Express following an MVC architecture, with MongoDB / Mongoose schema modelling and validation.
- Implemented JWT authentication and role-based access control, protecting API routes by role and mirroring the same permissions in the UI.
- Built bilingual (Arabic / English) Next.js front ends with full RTL support — layout mirroring, locale-aware routing, and font switching.
- Shared a single Zod schema across client and server to validate forms in one place instead of two.
- Improved SEO and page load through server-side rendering, structured metadata, and image optimization.

EDUCATION & TRAINING

B.Sc. Electronics & Communications Engineering — Mansoura University

2019 – 2024

Excellent with Honors (88.67%) · Graduation Project: Excellent

Intensive Training Program (ITP) — Information Technology Institute (ITI), Mansoura

Feb – Jul 2025

Full-Stack Web Development (MERN) · Selected as MERN track leader for the cohort

Front-End Diploma — Route Academy

Sep 2024 – Feb 2025

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Back-End:** Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control, MVC Architecture, GraphQL
- **Database:** MongoDB, Mongoose, Schema Design
- **Front-End:** React.js, Next.js, Redux, Zustand, Context API, TanStack Query, React Hook Form, Zod, Chart.js
- **UI & Styling:** Tailwind CSS, ShadCn, Material UI, Bootstrap 5, CSS3, HTML5, Responsive Design
- **Engineering:** SSR / SSG / ISR, Performance Optimization, SEO, Internationalization (i18n) & RTL, Design Patterns, OOP, Data Structures & Algorithms, Unit Testing
- **E-Commerce:** Salla Platform — Twilight theme development & app development
- **Tools:** Git, GitHub, Postman, npm, Jira, ClickUp, Slack, Agile / Scrum
- **AI Tools:** GitHub Copilot, Claude, Codex, Antigravity
- **Soft Skills:** Communication, Leadership, Teamwork, Problem Solving, Time Management.

PROJECTS

- **Sales Hero: Live**

Sales management platform with real-time analytics dashboards and automated workflows. Chart-driven reporting, server-state caching with TanStack Query, and validated multi-step forms.

Technologies: Next.js, Tailwind CSS, Tanstack Query, Chart.js, Zod, React Hook Form, Zustand.

- **Thimar : Live**

A full-stack responsive bilingual (Arabic & English) company website focusing on performance, accessibility, and modern UX.

Technologies: Next.js, Tailwind CSS, Zod, React Hook Form, Shadcn, Node.js, Express.js, and MongoDB.

- **Drcorp : Live**

A full-stack responsive bilingual (Arabic & English) company website focusing on performance, accessibility, and modern UX.

Technologies: Next.js, Tailwind CSS, Zod, React Hook Form, Shadcn, Node.js, Express.js, and MongoDB.

- **EasyLink : Live**

Full-stack corporate platform with a custom content API, server-rendered pages, and a focus on performance and accessibility.

Technologies: Next.js, Tailwind CSS, Zod, React Hook Form, shadcn, MongoDB, Nodejs, Express JS.

- **Qusah Store : Live**

Custom Salla e-commerce theme built from scratch with full storefront UI, responsive design, and Salla platform integration.

Technologies: Twilight Engine, Salla platform, JavaScript, CSS3, Tailwind CSS.

- **Verzasca : Live**

Premium Salla-based e-commerce storefront customized and configured for a high-end Saudi retail brand.

Technologies: Salla Platform, JavaScript, CSS3.

ADDITIONAL

- **Languages:** Arabic (Native) · English (Upper-Intermediate)

- **Leadership:** MERN track leader, ITI Mansoura (2025) · ECE Department Administrative Coordinator, Mansoura University (2020–2024)
